CKUT 90.3 FM

CKUT-90.3 FM Radio McGill YOUR campus radio station!!

CKUT is a fully licensed FM campus community radio station reaching an audience of approximately 100,000 listeners. Programming offers diversity of viewpoints and music.

CKUT FM promotes inter-cultural understanding and acceptance and will not broadcast material that promotes hatred, discrimination or contempt against an individual or group on the basis of gender, sexual preference, race or ethnic origin, religion, age, mental or physical ability.

THE DEPARTMENTS

Spoken Word

The Spoken Word Department collects raps and issues on art, culture, politics and strange ideas. The widest forum at the station, the spoken word offers you production, technical expertise, and the chance to cover, review and interview.

The mandate of the department is to provide a local representation of the diverse worlds around us, provide a "voice for the voiceless", and explore a variety of issues. Opportunity awaits come and speak the word.

Music

Music is a big word at CKUT 90.3 Radio McGill. We broadcast all musics in a variety of contexts and formats. We are always searching for new and challenging musics while, at the same time, exploring their roots. Come discover. Getting involved is easy, all you need is a love of music, some time to devote, and your ears. With one of the largest and most eclectic music libraries in the country, CKUT

is the place to explore the many grooves and rhythms of sound. Opportunities abound in the department: on-air programming, research, interviews, categorizing musics, DJ'ing, corresponding with record companies, reviewing concerts, and the list continues..... Come explore music's expanses at CKUT, where one person's noise is another music.

Production

This is the department where we play with knobs and other things that we don't know how to spell. We do all the work you hear on CKUT-FM which requires production, ie. ads, station ID's, "You're listening to CKUT-90.3FM", station promotions, "CKUT presents...." and occasionally radio plays and other special projects. We coordinate the activities of CKUT-FM's off-air studio, known as the Production studio or PCR. This is an 8-track facility with some DSP (toys) for effects.

To get involved in this department you'll have to go through a series of training sessions which may be intimidating at first but think of the rewards.

This department takes care of two areas: production and technical. The former is outlined above, the latter means ensuring that all the equipment, from headphones to the transmitter itself, works and is maintained in good condition.

We encourage people to be as adventurous as possible, without injuring the equipment in mind-bending experiments.

MUSIC & SPOKEN WORD PROGRAMMING

Culture

Anything Goes ☆ Su 10h-10h30
Butterfield 8 ☆ Th 18h-19h
